6.20 CGPA

Research Interests

Insurance & Financial Risk Management, Explainable AI (XAI) & Responsible AI, Interpretable Machine Learning, Risk Analytics, Fraud Detection, and Data-Driven Decision-Making.

Research Experience

Master's Dissertation – IIIT Allahabad

Comparative Study of the Performance of Selected Mutual Funds in India (Sector-Wise): Pre-COVID-19 and During the COVID-19 Era.

- Reviewed relevant literature and developed an analytical framework for evaluating mutual-fund performance and risk-adjusted returns.
- Collected and organised secondary NAV data from AMFI, fund fact sheets, asset-management company resources, and Moneycontrol.
- Used the BSE Sensex as the market benchmark and the yield on 364-day Government of India Treasury bills as a proxy for the risk-free rate.
- Evaluated and ranked selected funds using returns, standard deviation, beta, the Sharpe ratio, the Treynor ratio, and Jensen's alpha; the analysis showed strong performance among banking, PSU, and technology funds, while infrastructure funds frequently underperformed.

Certification

- Jan 2021 ***Financial Modelling: Build a complete DCF Valuation Model*** | Udemy
May 2021 ***Financial Planning & Analysis: Building a Company's Budget*** | Udemy
June 2021 ***Investment Analysis & Portfolio Management*** | Udemy
